DCE DIGITAL CIRCULAR ECONOMY

by ecobyte

Services for owner of Returnable Transport Packaging (RTP)

my DCE

The Problem

- Are you regularly experiencing losses in your RTP because the movements between you and your partners are not transparently recorded?
- Are you managing movements and inventory in a decentralized manner using various Excel spreadsheets?
- Are you experiencing efforts and frustration when reconciling accounts with your partners?

The Solution

Our web platform myDCE offers:
- Transparency over all movements of your RTP
- Integration of your partners and pool service providers in one interface
- Packages with a transparent cost structure
- Interfaces to integrate with your own ERP and other systems are possible

An overview of myDCE

- Intuitive user interface, available in 8 languages
- Easy maintenance of customers, articles, locations, users, etc.
- Capture of transfers through manual entries or interfaces
- Various booking models, such as „handshake" for timely clearing of differences
- Upload of receipts and other documents
- Comprehensive notifaction functions
- Free integration of pool service providers WBG Pooling and LHM Pooling
- Expandability to full automation through AutoID and IoT
